

THE SITE

As you will have noticed, there has been an increase in the number of vehicles around the site, including large articulated lorries and personal cars belonging to site staff. We would like to take this opportunity to ask that you remain vigilant and take extra care when you are in the vicinity of the site. CCG has installed traffic management protocols to ensure that disruption to your day to day lives is kept to a minimum. This includes delivery times out with peak hours wherever possible as well as a strict working schedule between the hours of 8am and 5pm to decrease noise levels during the day. We do everything we can to continue to minimise disruption. We thank you for your ongoing patience.

COMMUNITY ENGAGEMENT

CCG understand that engaging with the local community is important and we wish to inform you of all site activities whilst providing you with relevant details so that you can air any questions or concerns. This newsletter can be downloaded from our company website with new issues published every 12-16 weeks depending on the progress of the project. Should you have any immediate enquiries related to construction activity, please revert to our Project Manager who is based at our site compound full time:

Graeme Sinclair, CCG Project Manager
 E: GSinclair@c-c-g.co.uk / M: 07900 565931

On behalf of GHA: Due to the high number of incidents regarding unknown persons consuming drink and drugs in the Gallowgate area, GHA requests residents to phone Police Scotland on 101 and report any sighting of this behaviour. You do not have to provide your name and it allows Police Scotland to address this problem and arrange for additional resource to the area. Hopefully this action will make the area safer for the residents.

The allocation of properties for social housing will be managed by Glasgow Housing Association (GHA).

Please visit the Lowther Homes website for more information on the mid-market rent properties.
